

PROJECT PRAYER LIST 4.1.2019

<https://projects.buildersintl.org>

Region	Project Name	Country	Missionary	Need . Description . Benefits
Africa	Gabon Bible School	Gabon	Gary Dickinson	Rapid growth means expansion at the Bible school is necessary, as more pastors need training. During a two-month block of classes, pastors are currently housed in Sunday school classrooms at a church on the Bible school campus, which is a very difficult situation. New construction of a dormitory is needed. This addition will enable pastors who stay at the school for months at a time to have a designated space.
Africa	Pemba Center	Mozambique	Joel Charest	Finish the Pemba Ministry Center facility. This multi-purpose building is the last major component to fully launch the planned ministry and outreach. The Pemba Ministry Center is strategically located in proximity to Mozambique's most unreached areas. It is a strategic component of all planned ministries in northern Mozambique.
Asia Pacific	Bayanihan Church Partnership	Philippines	Randel Peterson	Missionary Randle Peterson headed up the launch of the Bayanihan Project to build at least 100 churches throughout the Philippines. Christians in the Philippines meet in house churches, rent a building, or meet outdoors. Once a facility in the Philippines is ready for occupancy, the congregation grows an average of 200% in the first two years! That advances a church at least 20 years, because of a building!
Asia Pacific	Tanna Mission Center	Vanuatu	Sam Paris	The 210 mph winds created by Cyclone Pam in early March completely removed the existing metal roofs on 2 buildings at the Bible school. Many other structures across the island suffered extensive water and structural damage from falling trees and wind. Teams and funds needed!. As well, there is need for help with work on a school campus for 2-3 months.
Eurasia	NTC Women's Dorm	Nepal	Jason Loper	SENSITIVE: Completion of women's dormitory for NTC
Eurasia	Tatarstan Church	Russia	Carley Touchstone	A construction deadline hangs before this thriving congregation as their building is in progress. Located in a city of 600,000 people, a majority of the population is Tatar, an unreached group, and Muslim. Temporary facilities for this church of 500 people are already in use.
LAC	Santiago Children's Ministry Center	Santiago, Chile	Jim Mazurek	Countless children are wandering the treacherous streets of Santiago day and night. God continues to perform miracles on their behalf through Santiago Children's Ministries Outreach Center. Teams are needed to help complete the construction of this much needed facility.
LAC	Quibdo ChildHope School	Columbia	Mike Lawrence	Quibdo, Colombia, has remote groups that have created a culture of their own. Latin America Child Care's vision is to directly associate outreach of the indigenous settlements with a large congregation. A good church is imperative. Upon completion of Quibdo School and Church, the spread of Christianity will be enhanced, bringing families together to hear the Truth of the Gospel.
LAC	Panama LARTC	Panama	Rod Boyd	LARTC is being developed on three acres just 10 minutes from Panama City's main airport. The complex will consist of two buildings connected by a large commons area. LARTC equips leaders and trains teachers through events and leadership dialogues that promote networking and coordination of educational efforts, as well as providing needed resources for ministerial training.
LAC	Villa Alta Gracia	Dominican Republic	Mitch Martinez	God has given this church a new season of growth, from a congregation of 400 to over 2000 people. A church building is needed to give adequate space for up to 5,000 people. This will accommodate the growth pattern of "Life Change Church", which is currently running approximately 2,000 people.
LAC	Amazon 100	Brazil	Mark Lemos	The region along the Amazon River is home of the largest number of un-contacted tribes in the world. Missionaries Mark and Helba Lemos have a vision for bringing the Gospel to these indigenous people by building 100 churches! Each church is 26 feet x 56 feet, seating 150 people.
LAC	Canaan Church	Haiti	Builders International	Following Haiti's 2010 earthquake, a mountainside served as refuge for thousands of displaced Haitians. This location became their "promised land," and they called it Camp Canaan. It has grown to be the third largest metropolitan area in Haiti with over 300,000 people. Pastor Charles Fouchon and his family started a church for these displaced people. It began with 19 people and has now grown to a congregation of more than 600 and a school serving the community. Construction is underway of a two-story Ministry Center with capacity for 800 people.
LAC	Honduras 100+	Honduras	Brad Foltz	More than 100 churches have been built since 2005 throughout Honduras. 100 PLUS continues to focus on church planting projects. We partner with local congregations to build a 36x50 structure. The Honduran church purchases the land and does the finish work. These facilities enable the church to thrive in their community with outreaches to help children and the elderly, by providing food pantries, after-school child care, and feeding programs.
LAC	Chetumal Bible School	Mexico	David Smith	Having operated for 20 years as an extension of the Instituto Biblico Ecclesiastes, students of the Chetumal Bible Institute have had to travel to five different churches for different periods, which limits their development. Despite this situation, pastors continue to graduate and lead churches throughout the area. Because it covers two regions, more than 100 AG churches are directly benefited by the presence of this extension. A new facility would serve to overcome the present limitations of not having an established location for the unique services operating as Instituto Biblico Chetumal.
LAC	Morelia Bible Institute	Mexico	Duane Martin	Morelia, the capital city of the State of Michoacan, is located in the Bajio District of Mexico. This area of Mexico is sometimes referred to as the "Heart of Darkness" because it is less than 2% evangelical Christians. Currently, students of the Morelia Bible Institute are meeting at extension sites throughout three different states across the Assemblies of God Bajio District. Upon completion, all students will come together in the new Bible school facility in a centralized location.

LAC	Cuba Churches Project	Cuba	Paul Duda	SENSITIVE: House churches
LAC	Ecuador Jungle Churches	Ecuador	Tim Anderson	Building jungle churches among the unreached indigenous
LAC	Marriage and Family Counseling Center (MFCC)	El Salvador	Don Triplette	There is an overwhelming need in El Salvador for Christians to gain a better understanding of the intricacies of marriage and family. The current facility which is incomplete is at maximum capacity completion of this building is urgently needed. There are many who are waiting for training and ministry to make a turn around in their lives, families and others. Teams of masons, plumbers, electricians, tilers and finishers are needed now for the completion of the second level of construction. The Missionaries, Staff and facilities are ready and waiting for teams to come and help.
LAC	Kings Castle Ministry Campus	Nicaragua	Steve Sobey	The base of operations for King's Castle Ministry Campus in Nicaragua is in desperate need for teams. Events occasionally have to be cancelled because of over-capacity. Phase one will complete the multipurpose building, which manages to operate presently with only makeshift lighting. Phase Two will be a new building with bleachers and dorms.
LAC	Berea ChildHope School	Guatemala	Daren Walker	Many children in Guatemala suffer from the affects of extreme poverty and lack the opportunity to a basic education. Through the ministry of ChildHope many of these children are able to break the cycle of poverty and learn about the love of Jesus Christ. Teams are needed to help complete the construction of this school.
